Ready Families Manager Position Posted

First of Three New Manager Positions

The posting for the **Thrive in 5 School Readiness Manager: Ready Families** is available online on at www.thrivein5boston.org.

The Ready Families Manager, housed at and funded by United Way of Massachusetts Bay and Merrimack Valley, will coordinate implementation of the Ready Families component of Thrive in 5 as laid out in Boston's School Readiness Roadmap.

The ideal candidate will be a results-oriented project manager with proven experience developing and facilitating partnerships and working effectively with community stakeholders to achieve a common goal.

Please share this opportunity with colleagues. Check out the [full posting and application instructions](#) online.

The Ready Families Manager at United Way is the first of three Manager-level positions that will be posted with Thrive in 5. While the Manager positions will be very similar to one another, each will be housed at a different lead organization in Boston. Look for information about the **Ready Educators** and **Ready Systems** Manager positions in the coming weeks in our next newsletter. Look for the announcement of the **Thrive in 5 Executive Director** in October.
